

QED Performance Audio 40i

Original thinking. World-class engineering. Extraordinary performance.

QED introduced the Performance Audio 40 stereo interconnect almost six years ago. Even before it had received the first of its many awards and five-star reviews, though, QED was hard at work to make this extraordinarily capable entry-level interconnect even better. Excellence is hard to improve on, of course - but QED is committed to improvement, and with Performance Audio 40i it's taken a decisive step onwards. Performance Audio 40i is a cable that uses original thinking, unique engineering and uncompromising construction to set entirely new standards at its price.

QED's engineers have a profound commitment to continuous improvement. It's a philosophy that recognises the merit of improvements both great and small - and so a constantly evolving process

of experimentation and development has led to numerous performance gains, both great and small, in Performance Audio 40i over Performance Audio 40. The Solid Complementary Conductor technology contained within Performance Audio 40i most certainly counts as a great improvement. Using two separate, solid conductors (one copper, the other silver-plated) provides the most coherent, least compromised route for audio information to travel - consequently, Performance Audio 40i exceeds even the most optimistic customer's expectations.

Rigorous, painstaking development. Class-leading signal integrity. Audio performance way beyond what might be expected at the price. QED's Performance Audio 40i redefines what an entry-level stereo interconnect can be.

SRP from £39.95 (0.6m)

AVAILABLE NOW

QED Performance Audio 40i

With Solid Complementary Conductor Technology

Ferrite Insulation

Improved dynamics, and absorbing of high frequency interference

Anamate RCA plugs

Superior timing and imaging

Solid Complementary Conductor

Enhanced timing and improved imaging ability

SPECIFICATIONS

Outer diameter	8 mm
Metallurgy	99.999% oxygen-free copper and silver-plated oxygen-free copper
Loop resistance	0.05 Ω /m
Self-inductance	0.45 μ H/m
Capacitance	57 pF/m

STOCK CODES & PRICES

QE6119	QED PERFORMANCE AUDIO 40i	50m Reel	£385.00
QE6111	QED PERFORMANCE AUDIO 40i	0.6m	£39.95 / \$49.00
QE6113	QED PERFORMANCE AUDIO 40i	1.0m	£49.95 / \$59.00
QE6115	QED PERFORMANCE AUDIO 40i	2.0m	£69.95 / \$85.00
QE6117	QED PERFORMANCE AUDIO 40i	3.0m	£79.95 / \$95.00
