### OVERVIEW

**Wharfedale ELYSIAN** is a new flagship loudspeaker series that pushes the boundaries of capability and performance from a speaker at this price-point.

A genuine example of luxury audio, **ELYSIAN** offers indulgence in design, materials aesthetic and performance. A thorough and no compromise approach has led the **Wharfedale** engineers to create a benchmark in affordable, audiophile-grade luxury loudspeakers. Cutting edge design and class-leading technology are combined to deliver musical reproduction that will proudly challenge the world's finest loudspeakers.

From the genuine Piano-Lacquer finished cabinet, created with details of true craftsmanship, through to the AMT (Air Motion Transformer) high frequency transducers and European manufactured bass drivers, **ELYSIAN** represents a new standard in the world of home audio experiences.

The resultant sound, from the finely balanced driver selection and expert crossover design, matches the pristine design with a degree of natural transparency that will leave you breathless.

One for the connoisseur and one for the history books, **ELYSIAN** will leave you questioning, how is this possible in this price-class?

**ELYSIAN** is truly an audio engineering work of art.

### LEGACY AND FUTURE

- **ELYSIAN** is founded upon all of the groundbreaking research and development that helped Wharfedale become what it is today. This rich history, combined with cutting-edge technology and modern ideas on speaker design helps create this new benchmark is affordable, luxury audio.

### NEVER SEEN BEFORE

- The driver configuration of **ELYSIAN** is truly unique and exceeds that of any rival speaker in this price-class and form factor.

### BASS, IMPACT AND DEFINITION

- From the genuine Piano-Lacquer finished cabinet, created with details of true craftsmanship, through to the AMT (Air Motion Transformer) high frequency transducers and European manufactured bass drivers, **ELYSIAN** represents a new standard in the world of home audio experiences.
- The resultant sound, from the finely balanced driver selection and expert crossover design, matches the pristine design with a degree of natural transparency that will leave you breathless.

### AMT

- The AMT (Air Motion Transformer) high frequency transducer excels above any rival model, within this class. The point-source replicating, high volume air movement results in lower distortion and higher accuracy in HF reproduction.

### CRAFTSMANSHIP

- Each **ELYSIAN** cabinet is precision engineered with fine detail. It takes days to achieve the perfect curves that accentuate acoustic performance, as much as aesthetic beauty.

### HAND FINISHED

- Ultimately hand-finished with a genuine Piano-Lacquer. No other speaker in this class offers such a high-quality and luxurious finish.

### VALUE

- Luxury audio redefined, no other speaker brand offers such substance and performance at this price-point. **ELYSIAN** is unmatched and unrivalled in every way.

### WHY?

- Because your ears deserve it!
